

Greenhouse Gas Verification Statement

The inventory of Greenhouse Gas emissions in year 2022 of

Yuan Ze University

135 Yuan-Tung Road, Chung-Li,
Taiwan 32003, R.O.C.

has been verified in accordance with ISO 14064-3:2006 as
meeting the requirements of

ISO 14064-1:2018

Direct emissions

1278.2050 tonnes of CO₂e

Indirect emissions

10556.4508 tonnes of CO₂e

Direct emissions and indirect emissions

11834.656 tonnes of CO₂e

Authorized by

Stephen Pao

Knowledge Deputy General Manager

Date: 13 November 2023

Version 1

TGP56A-15-6 2207

SGS Taiwan Ltd.

No. 136-1, Wu Kung Road, New Taipei Industrial Park, Wu Ku District,

New Taipei City 24803, Taiwan

t (02) 22993279 f (02)22999453 www.sgs.com

Statement TW23/00564GG, continued

The emission of each category is described as below:

Unit: tonnes of CO₂e

Reporting Boundaries		GHG Emissions
Inventory categories	Description	
Direct emissions	This direct GHG emissions are the sum of owned or controlled by the organization within the organization.	1278.2050
Indirect emissions	Imported energy Imported Electricity	8201.7664
	Transportation 1. Upstream transportation and distribution for diesel 2. Business travel (airplane, high-speed rail, train)	16.3315
	Products used by an organization 1. Purchased goods (photocopy paper/ tap water) 2. Fuel-and-energy-related activities (not included in category 1 or 2) 3. Capital goods (desktop computers/ notebook computers) 4. Transportation and treatment for waste generated in operation	2001.7445
	Associated with the use of products from the organization Downstream leased assets (electricity / LPG)	336.6085
	Other sources NA	NA
Direct emissions and indirect emissions		11834.656

Statement TW23/00564GG, continued

SGS has been contracted by Yuan Ze University (hereinafter referred to as “YZU”), 135 Yuan-Tung Road, Chung-Li, Taiwan 32003, R.O.C. for the verification of direct and indirect Greenhouse Gas emissions in accordance with

ISO 14064-3:2006

as provided by Yuan Ze University hereinafter referred to as (“YZU”), 135 Yuan-Tung Road, Chung-Li, Taiwan 32003, R.O.C., in the GHG Assertion in the form of GHG report covering GHG emissions of the period 01 January 2022 to 31 December 2022.

Roles and responsibilities

The management of YZU is responsible for the organization’s GHG information system, the development and maintenance of records and reporting procedures in accordance with that system, including the calculation and determination of GHG emissions information and the reported GHG emissions.

It is SGS’s responsibility to express an independent GHG verification opinion on the GHG emissions as provided in the GHG Assertion for the period 01 January 2022 to 31 December 2022.

SGS conducted a third-party verification of the provided GHG assertion against the principles of ISO 14064-1:2018, ISO 14064-3:2006 in the period 05 September 2023 to 27 September 2023. The verification was based on the verification scope, objectives and criteria as agreed between Yuan Ze University and SGS on 10 April 2023.

Level of Assurance

The level of assurance for category 1 and category 2 agreed is that of reasonable assurance. Category 3 till category 6 agreed is that of limited assurance.

Scope

Yuan Ze University has commissioned an independent verification by SGS Taiwan of reported GHG emissions of YZU arising from education activities, to establish conformance with ISO 14064:2018 principles within the scope of the verification as outlined below.

This engagement covers verification of emission from anthropogenic sources of greenhouse gases included within the organization’s boundary and is based on ISO 14064-3:2006.

Statement TW23/00564GG, continued

- Title or description activities: GHG verification for YZU in year 2022
- Location/boundary of the activities:
 - 135 Yuan-Tung Road, Chung-Li, Taiwan 32003, R.O.C.
- Physical infrastructure, activities, technologies and processes of the organization: education
- GHG sources, sinks and/or reservoirs included: Sources as presented in the inventory spreadsheet provided by YZU
- Types of GHGs included: CO₂, CH₄, N₂O, HFCs, PFCs, SF₆, NF₃
- The IPCC 2021 AR6 GWP values are applied in this inventory.
- Emission factor:
 - Direct emissions: Greenhouse Gas Emission Factor Table (6.0.4), EPA.
 - Indirect emissions:
 - Electricity emission factor is 0.495 kgCO₂e/kwh (Announced by Bureau of Energy, Ministry of Economic Affairs in 2023).
 - The secondary database has Carbon Footprint Information Platform, ICAO Carbon Emissions Calculator.
- Directed actions: NA
- GHG information for the following period was verified: 01 January 2022 to 31 December 2022.
- The version of inventory sheet: v2_20231011
- The version of GHG assertion: v2_20231011
- Intended user of the verification statement: Private

Objective

The purposes of this verification exercise are, by review of objective evidence, to independently review:

- Whether the GHG emissions are as declared by the organization's GHG assertion
- The data reported are accurate, complete, consistent, transparent and free of material error or omission.

Criteria

Criteria against which the verification assessment is undertaken are the principles of ISO 14064-1:2018.

Statement TW23/00564GG, continued

Materiality

The materiality required of the verification was considered by SGS to 5%, based on the needs of the intended user of the GHG Assertion.

Conclusion

Yuan Ze University provided the GHG assertion based on the requirements of ISO14064-1: 2018. The GHG information for the period 01 January 2022 to 31 December 2022 disclosing emissions of 11834.656 metric tonnes of CO₂ equivalent and 0.0000 metric tonnes of direct CO₂ emissions from the combustion of biomass are verified by SGS to a reasonable level of assurance, consistent with the agreed verification scope, objectives and criteria.

The emission of each category is described as below:

Unit: tonnes of CO₂e

Reporting Boundaries		GHG Emissions	
Inventory categories	Description		
Direct emissions	This direct GHG emissions are the sum of owned or controlled by the organization within the organization.	1278.2050	
Indirect emissions	Imported energy	Imported Electricity	8201.7664
	Transportation	1. Upstream transportation and distribution for diesel 2. Business travel (airplane, high-speed rail, train)	16.3315
	Products used by an organization	1. Purchased goods (photocopy paper/ tap water) 2. Fuel-and-energy-related activities (not included in category 1 or 2) 3. Capital goods (desktop computers/ notebook computers) 4. Transportation and treatment for waste generated in operation	2001.7445
	Associated with the use of products from the organization	Downstream leased assets (electricity / LPG)	336.6085
	Other sources	NA	NA
Direct emissions and indirect emissions		11834.656	

Statement TW23/00564GG, continued

SGS's approach is risk-based, drawing on an understanding of the risks associated with reporting GHG emissions information and the controls in place to mitigate these. Our examination includes assessment, on a test basis, of evidence relevant to the amounts and disclosures in relation to the organization's reported GHG emissions.

We planned and performed our work to obtain the information, explanations, and evidence that we considered necessary to provide a reasonable level of assurance that the GHG emissions of category 1 and category 2, and limited level of assurance of category 3 till category 6 for the period 01 January 2022 to 31 December 2022 are fairly stated.

We conducted our verification with regard to the GHG assertion of YZU which included assessment of GHG information system, monitoring and reporting plan/protocol. This assessment included the collection of evidence supporting the reported data, and checking whether the provisions of the protocol reference, were consistently and appropriately applied.

In SGS's opinion the presented GHG assertion

- is materially correct and is a fair representation of the GHG data and information, and
- is prepared in accordance with ISO14064-1:2018 on GHG quantification, monitoring and reporting.

Confidentiality

The reports and attachments may contain relevantly confidential information of the clients. In addition to being submitted as governmental application or certification documents, the reports and attachments are not allowed to be edited, duplicated, or published without the clients' agreement in written form.

Avoidance of Conflict of Interest

The reports and attachments are completely complied with the standards and procedures that related authorities established. The reports and attachments of auditing process are conduct with fairness and honesty. If not, the auditing institution not only has to bear the relevant compensation duties, but also to receive legal charge and punishment.

This statement shall be interpreted with the GHG assertion of YZU as a whole

Statement TW23/00564GG, continued

Verifier Group

Above statements coincide with auditing process with fairness and impartiality and aim at the emission of year 2022 of clients.
